Presley: Amory Business Receives \$1,200 Check for Energy Efficiency Upgrades

Amory, Mississippi (December 13, 2016) – Public Service Commissioner Brandon Presley alongside Atmos Energy representatives presented Carlisle's Cleaners in Amory with a rebate check for \$1,200 to offset costs of equipment upgrades made by the business resulting in lower use of natural gas.

Carlisle's Cleaners recently replaced a 40 year-old boiler with an energy efficient gas-fired boiler that is 92% efficient. The old boiler that was replaced ran at approximately 60% efficiency. Since the new equipment runs more efficiently Carlisle's will see lower gas bills for years to come, the goal of the Commission's program.

"Businesses like Carlisle's Cleaners are the backbone of Mississippi's economy. The Public Service Commission is dedicated to turning over every stone in finding ways to help businesses and residents cut their utility costs. When businesses invest in being more efficient, I'm proud that we have programs like the one with Atmos Energy that help offset some of the costs.", Commissioner Presley said.
